EDUCATION

University of Virginia, Charlottesville, VA - Expected Class of 2026
School of Engineering and Applied Science - B.S., Computer Science
GPA 3.2

South Lakes High School, Reston, VA - Class of 2022
International Baccalaureate Diploma Program and Recipient
GPA 4.3

EXPERIENCE

Publicis Sapient, Chicago, IL – Software Engineer Intern Jun 2025 – Aug 2025

- Engineered AI-powered chatbot solutions for a top tier Financial services client (>\$200B in annual revenue) by integrating Azure OpenAI with Langchain to implement data-enhancement tools and prompt engineering pipelines that deliver personalized, context-aware chatbot responses and dynamic experiences for millions of customers across all levels of investment experience.
- Collaborated with client stakeholders and an Agile development team to design a chatbot to strategically expand digital engagement and increase adoption.
- Developed and deployed full-stack web solutions (React, Node, Flask APIs, Python backends) and managed secure Firebase databases, enabling scalable performance for high-volume user interactions.
- Researched and tested different emerging AI frameworks and LLMs to provide reliable product capabilities and strengthen the client's competitive edge.

ASRC Federal/Joint Interoperability Test Command, FT. Huachuca, AZ - Test and Resource Management Center STEM Intern May 2024 – August 2024

- Architected and developed a secure web application with account creation and user authentication features to provide the Cyber Survivability Assessment Team (CSAT) at the DoD with an environment for conducting vulnerability scans, penetration tests, and SQL injections. Used HTML/CSS, JavaScript, PHP, and Apache on Ubuntu.
- Hardened web server security after collaborating with the testing team. Created a database on a Microsoft SQL server to encrypt the user data traffic and edge cases to prevent buffer injection attacks. The servers will be used as a training environment for future testers to practice using the test tools.
- Practiced fundamentals and concepts of Operational Test and Evaluation (OT&E) within the CSAT at the Department of Defense (DoD), which aim to provide additional tests and evaluation to systems and services to ensure that they meet the warfighters' needs.

Reston Community Center, Young Actors Theatre, Reston, VA – Choreographer/Dance Instructor May 2021 - Aug 2023

- Choreographed, ran rehearsals, and taught dance numbers to groups of thirty 7 to 14-year-old children for Rainbow Fish the Musical (2021), Golly Gee Whiz (2023), and A Dark and Stormy Night (2023). Taught ballet, musical theater jazz dance, and basic acting skills.

Reston Aquatics, Reston Association, Reston, VA – Lifeguard/Pool Operator Jul 2020 - Aug 2021

- Supervised 3-5 lifeguards per shift, managed pool chemistry, and cleaned the pool. Certified and trained in Rescues, CPR, and First Aid.

Langston Hughes Middle School Drama Department, Reston, VA – Choreographer/Dance Instructor May 2019 - Apr 2022

- Choreographed dance numbers for a 60-person cast of 7th-8th graders in High School Musical JR.(2019) and The Wizard of Oz JR. (2022).

PROJECTS

“WahooWay” - UVA Accessibility GPS Application

- Designed and developed a mobile application for UVA grounds that will provide accessible routes between buildings, focusing on features such as ramps, elevators, and accessible entrances, to address the problem of inaccessible campus navigation for those with mobility impairments. Built using Flutter/Dart, Mapbox, Node.js, and PostgreSQL.

“ReHooz” - Thrifting Application

- Built and managed a database-centered web application, designed specifically for University of Virginia students to buy and sell secondhand clothing and other items within the student community, which reduces the need for shipping, increases accessibility to items on or near campus, and fosters sustainable consumption practices. Developed using React, Python, and MySQL.

SKILLS

Java, Python, React, Node.js, Flask, Flutter, Firebase, Azure OpenAI, Langchain, C, HTML/CSS, x86-64 Assembly, SQL, PHP, Git, Jira/Confluence, Virtualization (Hyper-V), Windows (Microsoft Server 2022), Ubuntu Linux, Apache, PowerShell, Bash, Microsoft (Word, Excel, PowerPoint), Google (Sheets, Docs, Slides, Forms), Audacity, Microsoft Office Word 2016 Specialist Certification, Fluent in English, Conversant in Spanish
